1200W DC DC Step Up Convertor 8-60V To 12-83V 20A

- Module model: SZ-BT07CCCV-A; Module name:1200W boost constant current module
- Module properties:Non-isolated boost module (BOOST); Input voltage: DC10-60V
- Static work current:15mA
- Output voltage:12-83v continuously adjustable (the default output is adjusted to 19V for shipment.
- Working frequency:150KHz
