

Z101B

AC Voltage Sensor Module ZMPT101B Single Phase

- Product model: ZMPT101B; Supply voltage: 5-30v; Rated input current: 2mA; Rated output current: 2mA
- Output Signal: Analog 0-5V; Change ratio: 1000:1000; Linear range: 0~1000V 0~10mA; Linearity: 0.2%
- Isolation withstand voltage: 4000V; Onboard micro-precision voltage transformer; Analog output corresponding quantity can be adjusted
- Good consistency for voltage and power measurement
- Active output single-phase AC voltage sensor module; Operating temperature : 40°C ~ + 70°C
