

SE150

ACTIVE INFRARED 2 BEAM SENSOR (150MT) "ABT100"

- Active Dual Infrared Beam Sensor for perimeter protection
- When an intruder passed through the invisible beam, signal is triggered to the control unit(not included)
- No. of Beams:2
- Alert Distance Max: Indoor-300m, Outdoor-100m
- Infrared transmitting frequency: 1.92KHz
- Built in AGC circuit wth high Anti-EMI/RFI capabilities
- Fully sealed design, rainproof and dustproof
- Anti-glare of up to 50,000 Lux, automatic adjustment built-in strong light filtering system
