

BMP280

Altimeter Atmospheric Pressure Sensor

- Enhancement of GPS navigation e.g.time-to-first-fix improvement?dead-reckoning?slope detection
- Indoor navigation?floor detection?elevator detection?
- Outdoor navigation?leisure and sports applications
- Weather forecast Health care application?e.g. sirometry?
- Vertical velocity indication?e.g. risk/sink speed?
- Target devices Handsets such as mobile phones ,table PCs,GPS devices Navigation systems Portable health care devices Home weather stations Flying toys Watches
- PCB size (L*W): 1.52* 1.20cm / 0.60"*0.47"
