

M3232

MAX 3232 DB9 RS232 Converter

- The RS232 To TTL Converter Module is widely used in radio modifications, cell phone Flash, XBOX360 Flash detection, GPS, car, DVD Flash, HDD repair, set-top box upgrade.
- Can be used to download MCU types:
- STC single-chip microcomputer
- STM32 microcontroller
- NXP microcontroller
- Renesas MCU
- NEC MCU
- Communications / Control IC: MAX3232
- Operating / Working voltage: 3.3V-5.5V
- Power supply: external
- Interface: TXD, RXD, GND, VCC
- Dimensions: 33mm*32mm*16mm
