

LEMI5D

MIC CABLE LEAD 5MT (XLR TO P38) DLX

- The cable is made of cotton yarn + nylon high-density mixed braided mesh, which is wear-resistant and durable
- The metal shell is electroplated, beautiful and durable, anti-interference
- 24AWG oxygen-free copper core 64 tinned copper braid shielding + aluminum foil shielding to enhance signal transmission, making the music clearer and fuller
- Nylon mesh to improve tensile strength and wear resistance The cable is soft, wear-resistant, insect-proof and rodent-proof
- Strong noise reduction, pure sound quality without noise
- Wire core material: tinned copper braid, oxygen-free copper core
- Wire material: nylon braided mesh, tinned copper braided shield, oxygen-free copper core
- Applicable equipment: microphone, mixer, power amplifier, speaker, audio
- Process: gold plating
