

M9250

MPU9250 9 Axis Attitude GYRO Sensor Module

- Main Chip?MPU-9250 299DOF
- Power supply: 3-5V (internal low dropout regulator)
- Communication: standard IIC communication protocol
- Using Immersion Gold PCB, machine welding process to ensure quality
- Used in UAV and toys , 9-Axis 9 DOF 16 Bit Gyroscope Acceleration Magnetic Sensor 9-Axis Attitude +Gyro+Accelerator+Compass magnetic field sensor Module IIC/SPI
