

NA390

NE555 Delay Monostable Switch Module 12V NA390

- Timing from microseconds to long hours.
- Simple circuit design.
- Precision Pulse Generation / Timing.
- Adjustable Duty Cycle.
- Monostable Operation.
- Supply Voltage (V): 12
- Adjustable Time(s): 0 to 10
- AC Control Voltage(V): 0-250 @max. 10A
- DC Control Voltage(V): 0-30 @max. 10A
