

W5500

SPI To Ethernet TCP/IP Network Module

- Chip type: W5500.
- Supports both 3.3V & 5V.
- Support Hardwired TCP/IP Protocols: TCP, UDP, ICMP, IPv4, ARP, IGMP, PPPoE.
- 10BaseT/100BaseTX Ethernet PHY embedded.
- Supports automatic response (full duplex/half duplex mode).
- Internal 32Kbytes Memory for Tx/Rx Buffers.
