

M567

TPA3116D2 12-24 V DC 2CHX80W AD Power Amplifier Board

- Chip type: TPA3116D2
- Chip protection: overvoltage under-voltage superheat DC detection short circuit
- Supply voltage: DC 12V to 24V
- Output power: 80W X 2
- Power efficiency > 90%
- Number of channels: double channel output
- Module Size: 60 x 32 x 14mm
