

SEWSS

Wireless Smoke Detector Sensor

- High Quality Wireless Smoke Detector with Photoelectric sensor
- Anti-light, Mothproof and dustproof for longer and efficient working
- Detection area 20 sq.m
- Sensitivity: Grade 1
- Alarm Output NC/NO
- Working Voltage; 9 V Battery /12V DC, Working Current: <10mA
- Auto Reset Function
- Ultra Low power consumption
- Embedded ceiling installation for easy and beautiful installation
- Working Frequency: 433MHz
- Push to Test button for periodic testing of the functioning of the device

Specification for SEWSS	
Model	YH-1098
Weight	Photoelectric detector
Package dimension	9V battery /12vdc
Installation	<10mA
Detection area	-10? — 50?? Humidity:<97%
Alarm output	85dB/m
Buzzer volume	NC/NO
Working environment	20
Working current	Ceiling mounted
Working voltage	11*11*3.5cm
Sensor	120g
Working Frequency	433 MHz
